Excluded from automatic  
downgrading and declassification

## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

A military barracks installation is located in Pamoterys, 17 kilometers (km) south of Kaunas (Figure 1). This installation is adjacent to Kaunas Radio Station No 1 Luisberg (BE [redacted])

The barracks installation covers 64 acres and contains 17 multistory barracks, 3 other barracks, 7 multistory administration buildings, 14 storage buildings, a powerplant, a transformer building, a secured multistory electronics building, 8 other electronics buildings, 2 motor vehicle storage buildings, 4 other buildings, a small-arms firing range,

and an athletic field (Figures 2 and 3).

This area was covered on [redacted] photography of [redacted] and on interpretable [redacted] photography of [redacted]

A comparative analysis reveals that the barracks installation has been expanded. Four of the multistory barracks and 4 of the storage buildings have been constructed since 1956. Two other buildings have been extended since then. An artificial lake on the northwest edge of the installation is new since [redacted]

## DESCRIPTION OF INSTALLATION

### Railroad Service

The nearest rail line is 5 km north.

### Road Service

The installation has access to primary roads between Kaunas and Prienai.

### Administration and Troop Housing Area

Area D contains 17 multistory barracks with 18 small associated buildings, 3 other barracks, 2 utility buildings, 6 multistory administration buildings, a multistory messhall, and another messhall. Four of the barracks, 5 of the buildings associated with them, and 1 of the utility buildings are new since [redacted]

### General Storage Area

Area E contains 14 storage buildings, a pumphouse and water tower, a multistory administration building, a powerplant, a guardhouse, and a multistory transformer build-

ing. Four buildings have been constructed and a building has been extended since 1956.

### Other Buildings

Area H contains a multistory electronics building and 8 other electronics buildings. These buildings are located in a reported antenna field.

### Equipment Storage/Maintenance Area

Area J contains a vehicle maintenance and storage building, 165 by 65 feet, and a vehicle maintenance and storage building, 75 by 55 feet. The small building has been constructed since 1956, and the large building is comprised of 2 buildings which were then separate.

### Athletic Field

Area K contains an oval track.

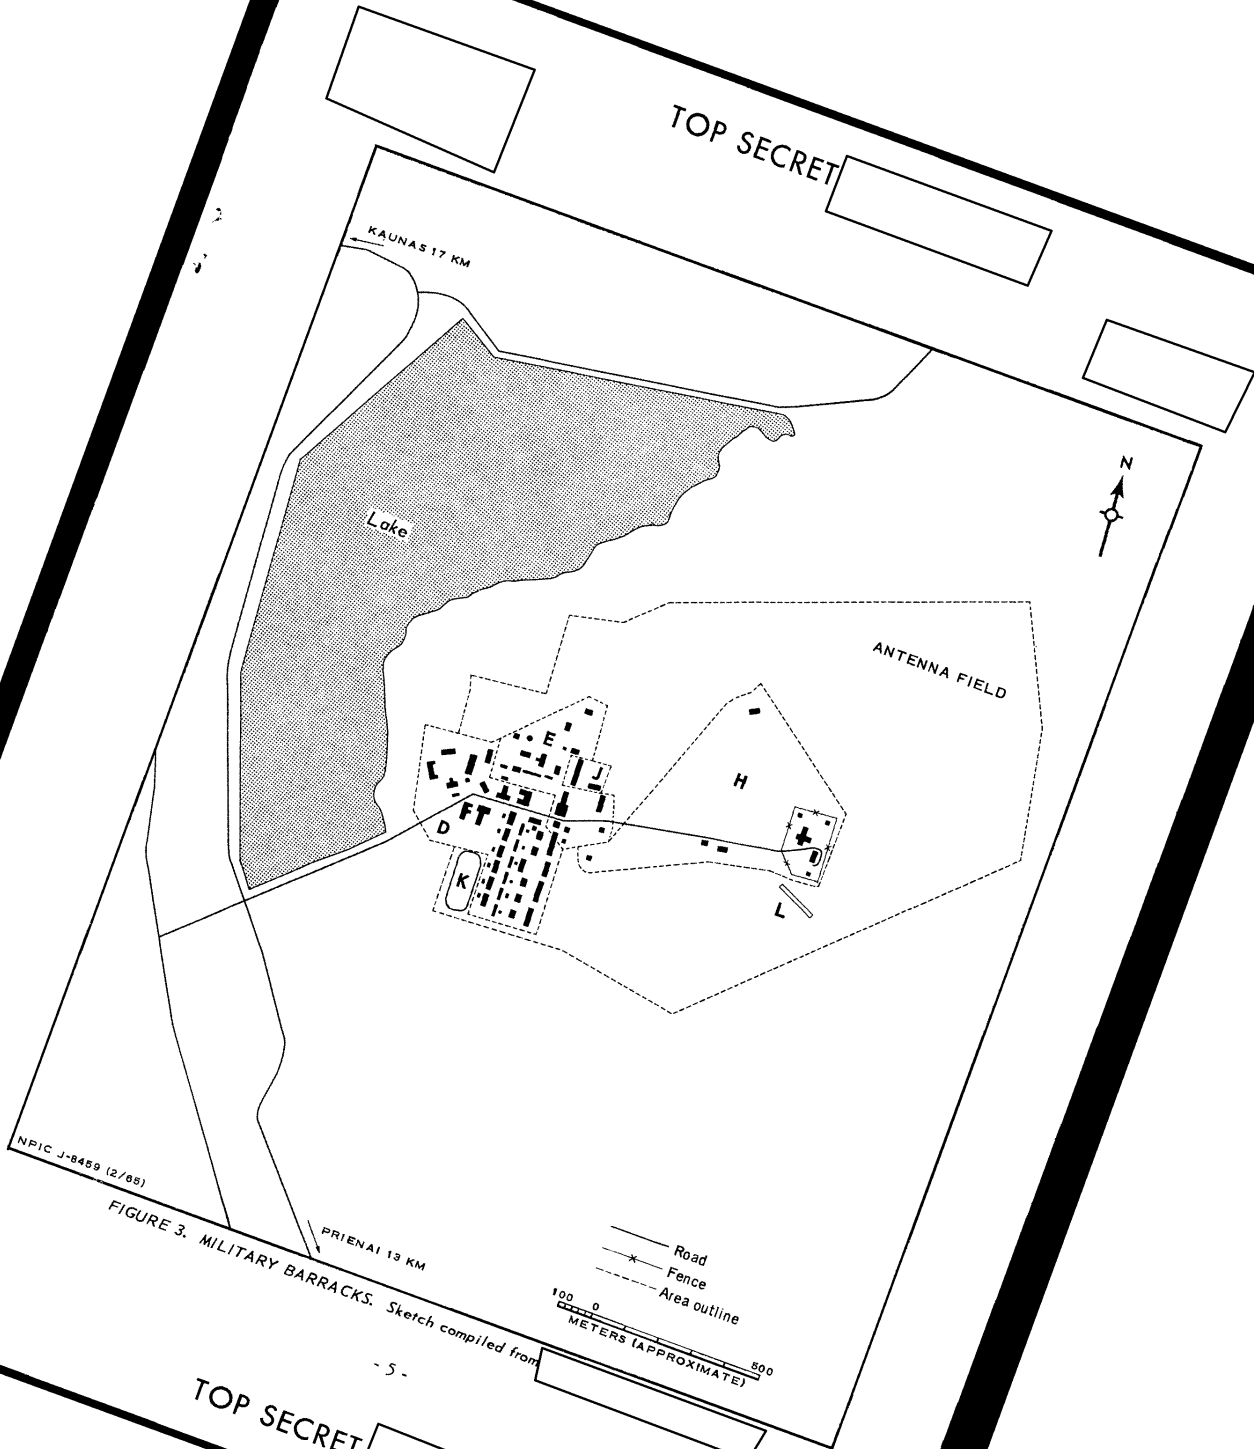

### Small-Arms Firing Range

Area L is a small-arms firing range measuring 300 by 30 feet.
